

Section 3:
GIS Maps

Interpreting the Maps

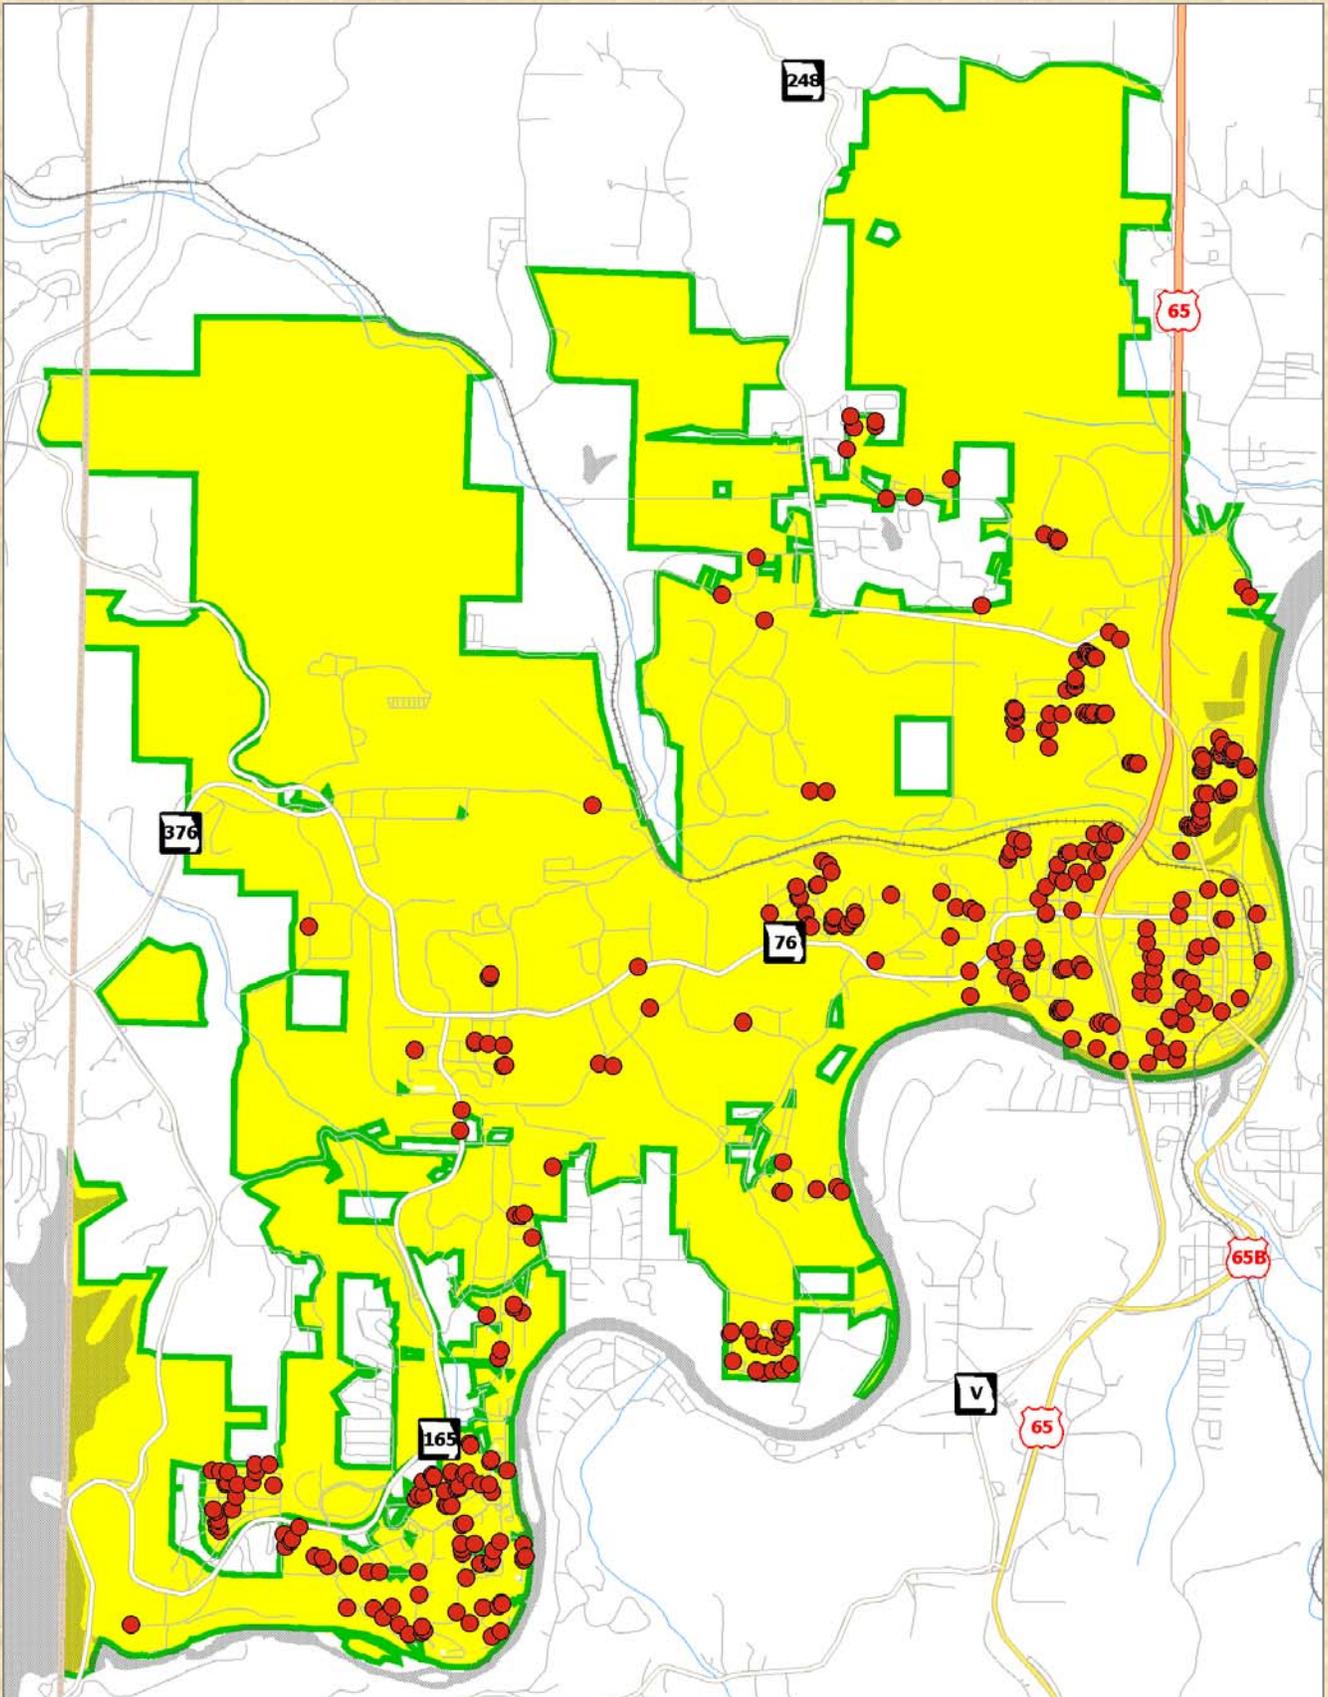

The maps on the following pages show the mean ratings for several questions on the survey by Census Block Group. A Census Block Group is an area defined by the U.S. Census Bureau, which is generally smaller than a zip code but larger than a neighborhood.

If all areas on a map are the same color, then residents generally feel the same about that issue regardless of the location of their home.

When reading the maps, please use the following color scheme as a guide:

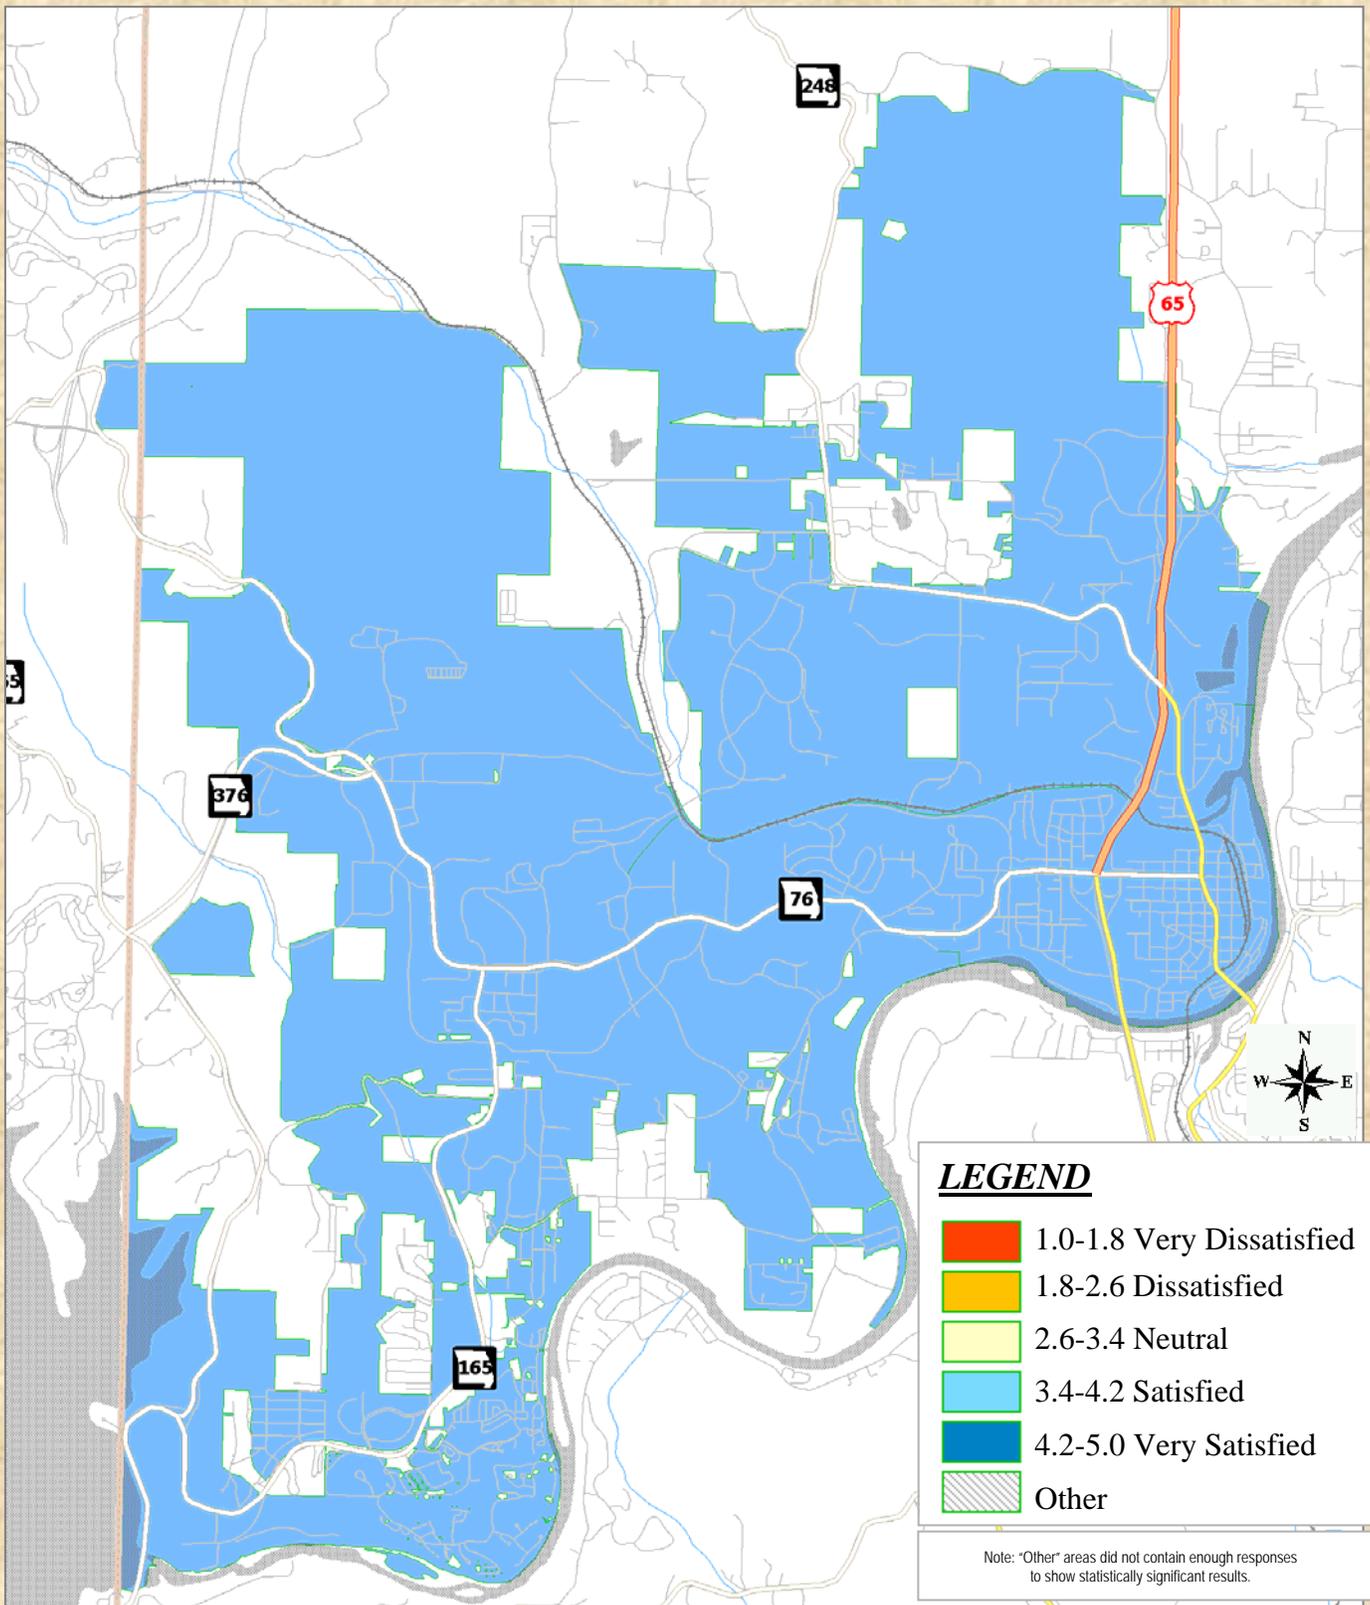

- **DARK/LIGHT BLUE** shades indicate POSITIVE ratings. Shades of blue generally indicate satisfaction with a service.
- **OFF-WHITE** shades indicate NEUTRAL ratings. Shades of neutral generally indicate that residents thought the quality of service delivery is adequate.
- **ORANGE/RED** shades indicate NEGATIVE ratings. Shades of orange/red generally indicate dissatisfaction with a service.
